PARENT INFORMATION

The K12 We Stand Together Scholarship application requires a parent or legal guardian to answer the questions below.

1. K12 Private Academy students need to become familiar with working online and using email. Please describe your child's technical abilities with using email and other online communication tools (such as Skype, etc.). Do you feel confident they will succeed in an online school if they receive a thorough orientation and follow-up support?

2. Student success in online education requires a collaboration between the parent (guardian) and school. Teachers will work with your child online to provide instruction and academic support as needed. However, because the student completes the work remotely, an adult needs to regularly monitor the student's work and progress and assist the student in requesting help from the school when needed. The designated adult (Learning Coach) will also receive orientation information and support to fulfill this role. Please identify who you think the Learning Coach will be and approximately how much time per week the Learning Coach would be available to support the student.

3. Describe how you believe your child will benefit from receiving a scholarship to K12 Private Academy. Please be as specific as possible about your expectations regarding the impact this will have on your child's future.

4. Please provide any additional information about your child's past school experiences or personal history, such as community or volunteer work, that you feel would help the scholarship committee know your child.
